

How to Install Autochartist Metatrader Plugin

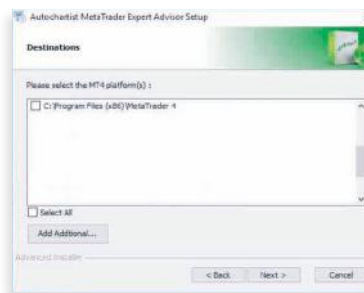

Step 1

The first window will ask you to select the language you wish to display during the rest of the installation.

Step 2

After the welcome and disclaimer windows the installer will determine all valid installations of MetaTrader and display them in a list. Tick the check box next to each MT4 platform you wish to install this plugin for. If your MetaTrader platform is not listed, please see the trouble Shooting Section.

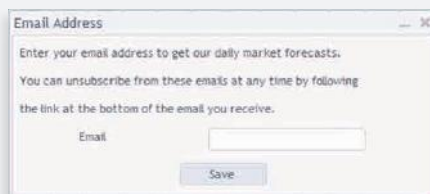

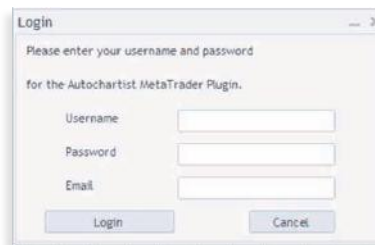

Step 3

Click install. Then click Finish. Open MetaTrader and drop the Autochartist MetaTrader Plugin onto a chart.

Step 4

If your installing the Autochartist MetaTrader Plugin as a Direct User Subscriber or if your broker requires a username and password procedure, the first window will ask you for your username, password and email address. Please consult your broker for the username and password (if the required it) or as a Direct User please check the email you received from Autochartist that contains your username and password.

Enter your credentials and click Login.

Step 5

If your installing Autochartist MetaTrader Plugin as a broker-user, enter your email address and click save. Once your advisor has been installed, you can restart your MetaTrader terminal, and it should be listed in the Navigation window, under the Expert Advisor tree-node.

Congratulations!
You have successfully installed Autochartist.
